SUMMARY

Results-driven Software Engineer with almost 3 years of professional experience specializing in Java Spring Boot backend development and React Native mobile applications. Experienced in building secure, scalable, and high-performance systems for banking, government, and enterprise clients. Skilled in deploying full-stack solutions with modern DevOps practices (Docker, Render, Fly.io, Netlify). Passionate about writing clean code and delivering products that serve thousands of active users daily.

WORK EXPERIENCE

Full Stack Engineer at InTec Sytem

Apr 2023 - Present

- Designed and implemented backend systems for banking and government platforms using Java Spring Boot, ensuring high security, scalability, and fault tolerance.
- Developed a banking software platform used by thousands of employees across two major banks, optimizing workflows and increasing reliability.
- Developed a banking software platform used by thousands of employees across two major banks, optimizing workflows and increasing reliability.
- Led backend development for the E-Evidence platform, now used by law enforcement agencies worldwide for digital case management.
- Built and deployed multiple mobile applications using React Native, published on the App Store and Google Play.
- Integrated PostgreSQL and MSSQL databases and optimized query performance for large data operations.
- Implemented CI/CD pipelines with Docker, simplifying deployment and reducing downtime.
- Collaborated with cross-functional teams to enhance DevOps efficiency and application performance by over 30%.

WORK EXPERIENCE

Freelancer

Apr 2019- Present

- Developed a Warehouse Management System in JavaFX for a local shop to manage inventory and streamline daily operations.
- Built and deployed a responsive website for USTourBalkan, improving their online presence and client engagement.
- Created an advanced Online Auction Platform using Spring Boot, React, and PostgreSQL, deployed via Netlify, Render, and Supabase.

EDUCATION

Bachelor of computer engineering

Oct 2018 - Jun 2022

International Balkan University

- Thesis on "Android Development".

ADDITIONAL INFORMATION

- Technical Skills:** Languages: Java, JavaScript, TypeScript, SQL, Spring Boot, REST APIs, Microservices, JWT Authentication, React.js, React Native, Next.js, PostgreSQL, MS SQL Server, Firebase, MongoDB, Docker, Render, Fly.io, Netlify, Git, Problem Solving, Agile Collaboration
- Languages:** English, Turkish, Macedonian, Serbo-Croatian.
- Certifications:** Udemy Java Masterclass Course, Meta React Native Developer Course
