PROFESSIONAL SUMMARY

I am a 25-year-old software engineer with a Bachelor's degree in Software Engineering and 2.5 years of experience as a backend developer. I bring expertise in developing secure and reliable backend systems, leading projects, and contributing to mobile app development with React Native, alongside some front-end skills in React and Next.js, aiming to leverage my problem-solving and DevOps experience in a challenging role.

KEY SKILLS

- Spring Boot
- React Native
- React and Next.js
- DevOps
- Problem Solving
- Team Collaboration

PROFESSIONAL EXPERIENCE

- Job Title: Head Backend Developer
- Company Name: Intec System
- Location: Skopje
- Dates of Employment: Apr 2023 - Present
- Responsibilities & Achievements:
 - Designed the backend development for multiple projects, designing robust and scalable solutions that enhanced system performance.
 - Collaborated with cross-functional teams to develop secure software for banks and state institutions, ensuring high reliability.
 - Spearheaded the development of mobile applications using React Native, significantly improving cross-platform functionality.
 - Implemented DevOps practices, streamlining deployment processes and boosting system reliability across projects.
 - Optimized backend performance by resolving complex technical challenges, delivering efficient and effective solutions.
 - Rewrote legacy code, improving performance by at least 30% and enhancing overall system efficiency.
